| Product SKU               | TPP21WC100T6P2R1W               |
|---------------------------|---------------------------------|
| Standard<br>Compliance    | DIN EN 12532                    |
| Series                    | T6P2                            |
| Fastening                 | Plate fastening                 |
| Brake and<br>Direction    | back brake                      |
| Material of the<br>Wheel  | polypropylene (PP) wheel center |
| Tread                     | polypropylene (PP) tread        |
| Temperature<br>range      | -20°C to +60°C                  |
| Wheel Diameter            | 100mm                           |
| Load Capacity             | 160kg                           |
| Total Hight               | 128mm                           |
| Width of Tread            | 36mm                            |
| wheel hub Width           | 40mm                            |
| Offset                    | 40mm                            |
| Dimension of<br>Plate     | 105x80mm                        |
| Hole Spacing of the Plate | 80/77x60mm                      |
| Swivel Radius             | 127mm                           |
| Wheel Bolt Size           | M8                              |
| Bushing<br>Diameter       | 12mm                            |
| Weight                    | 0.95kg                          |
| Wheel Bearing             | roller bearing                  |
|                           |                                 |
